Student Responsibilities

Students are expected to:

1. Be responsible for the learning process, including preparation for class, such as reading and homework; participation in class discussions, including asking relevant questions; and accepting responsibility for not understanding an assignment or failing an assignment
2. Be responsible for having an appropriate attitude and using appropriate language in academic environments, avoiding the use of condescending, inflammatory, threatening, or profane rhetoric, whether verbally or in written form, in academic environments
3. Have respectful behavior toward instructor and classmates in order to contribute to the atmosphere necessary for learning
4. Be responsible for courteous actions to others
5. Be responsible for reviewing all grades and applying them to the grading scale used for the class, which is shown in the course's policy statement/syllabus
6. Submit all assignments in accordance with due dates, formats, and requirements
7. Avoid all forms of cheating and plagiarism on all assignments, including improper collaboration
8. Ask questions when something is unclear

Attendance and Participation Policy

Regular, consistent attendance is required for this course. Any class session or activity missed, regardless of cause, reduces the opportunity for learning and may adversely affect a student's achievement.

There are several main things to remember about attendance for this course:

1. **I do not drop students for non-attendance.** It is your responsibility to initiate the drop process if you decide not to complete the course. Students who stop attending but don't complete the coursework will receive an F at the end of the semester.
2. Late work is not accepted for any reason.

Be advised – I do not accept late work for any reason. If you are absent, you are still required to complete the assigned work by the indicated due date and are still required to demonstrate the concepts you missed in your writing.

Style Guide

We will use the APA style guide for formatting and documentation in this course. Specific rules regarding this particular style guide can be found in on the 'Additional Resources' page in Blackboard. All documents you submit should be formatting using APA standards, and all citations you write, whether in-text or on a References page, should follow APA guidelines for citation.

Assignment Submission

I cannot accept any assignment via email, for any reason. It is your responsibility to make sure the assignment submitted properly *before* the due date. No documents will be accepted after the submission deadline has passed, for any reason.

Additionally, all files must be submitted as .docx documents (Microsoft Word). **I cannot accept .gdoc, .pages, .odt, .rtf, or .txt files. If you submit anything other than a .docx file, you will be given a 0 for that assignment and will not be allowed to make it up.**

Papers will be submitted in Blackboard. They must be named according to the instructions in order for them to be graded. I will not make allowances for the late policy because of misplaced files or files with non-standard file names.

Be aware – any assignment that doesn't meet the minimum length requirement by ½ will be given a zero, and you will not be allowed to make it up. Assignments that meet the length requirement by ½ but still don't meet the length requirement will receive significant grade deductions.

Please understand: File management is a skill that, as a college student, you should be very comfortable with. I cannot accept late work from students who didn't understand how to upload files. When you submit a file in Blackboard, you should receive a receipt at your SPC email address. Look for this email after you submit each assignment to ensure the file is in the proper place. This is extremely important.

As a college student, you assume the responsibility for your technology. I suggest three things:

1. Have a backup plan in place from day one, just in case your technology fails.
2. After submitting an assignment, return to the assignment submission before the due date and make sure it's been submitted properly. If it's not submitted properly by the due date, you will not receive credit for it, regardless of whether or not you thought the paper had submitted.
3. Don't wait until the last minute to submit assignments. If you have trouble, but no one is available to help you, you will still not be able to submit the assignment late.

You are responsible for making sure your work has been submitted properly.

Academic Integrity

It is the aim of the faculty at South Plains College to foster a spirit of complete honesty and a high standard of integrity. The attempt of any student to present as his or her own any work which he or she has not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offender liable to serious consequences and possible suspension. Please refer to the SPC General Catalog regarding consequences for cheating and plagiarism.

****Do not, under any circumstances, turn in another student's work as your own. Do not, under any circumstances, give your work to anyone else to turn in as their own. Do not copy and paste from the Internet. All of these situations are representative of academic dishonesty and will be treated as such.****

I have zero tolerance for cheaters. If I suspect you of cheating, I will drop you without discussion. Please trust me when I say I have ways of determining whether or not you've cheated that you can't get around, as smart as you are. ;-)

Plagiarism violations include, but are not limited to, the following

1. Turning in a paper that has been purchased, borrowed, or downloaded from another student, an online term paper site, or a mail order term paper mill;
2. Cutting and pasting together information from books, articles, other papers, or online sites without providing proper documentation;
3. Using direct quotations (three or more words) from a source without showing them to be direct quotations and citing them.
4. Missing in-text citations.

Cheating violations include, but are not limited to, the following:

1. Obtaining an examination by stealing or collusion;
2. Discovering the content of an examination before it is given;
3. Using an unauthorized source of information (notes, textbook, text messaging, internet) during an examination, quiz, or homework assignment;
4. Entering an office or building to obtain unfair advantage;
5. Taking an examination for another;
6. Altering grade records; or

7. Copying another's work during an examination or on a homework assignment.

AI Submissions and Procedure

I have an ethical responsibility to ensure that all students receive credit for only work that they have originally and ethically produced. Any evidence of AI through detection ratings or faculty review will be subject to further investigation.

It is your responsibility as a student to demonstrate that your work is original in order to avoid penalties or plagiarism violations. I encourage all students to keep a comprehensive draft history and track changes in Microsoft Word as a precaution. This is the easiest way to prove authorship and protect your academic integrity in the age of AI.

In many cases, work containing evidence of AI assistance will require a Zoom conference for an interview and proctored writing sample. These conferences will be recorded and reviewed by at least one other faculty member, and a determination will be made as to whether there is satisfactory evidence of authorship to earn credit.

Student Code of Conduct Policy

Any successful learning experience requires mutual respect on the part of the student and the instructor. Neither instructor nor student should be subject to others' behavior that is rude, disruptive, intimidating, aggressive, or demeaning. Student conduct that disrupts the learning process or is deemed disrespectful or threatening shall not be tolerated and may lead to disciplinary action and/or removal from class.

The 5-day isolation period, symptoms have improved and they are afebrile for 24 hours without the use of fever-reducing medication.
3. Please instruct students and employees to communicate with DeEtte Edens prior to their return date if still symptomatic at the end of the 5-day isolation.

Exposed individuals will not be required to quarantine. If exposed, SPC does request individuals closely monitor themselves. If an individual does become symptomatic, please do not attend class or work and be tested.
